**1919--1920**  
**PRICE LIST**

With Instructions and Information Regarding The Growth of  
Pecan Trees

**TO GROW PECANS**

It is important, as in other enterprise, to begin right and continue right. First, get good trees of the best varieties from a reliable nursery; then plant them carefully in ground well prepared for their reception. Cultivate and fertilize them well, never letting the raw fertilizer come in contact with the roots.

Pecan orcharding has passed the experimental stage and is now recognized as one of the most profitable industries in the South. All persons who take advantage of their opportunity now and plant a grove of pecans will be the first to reap their reward.

\* \* \* \* \*

**OUR LOCATION**

We are located on the Sabine River, 150 miles north of the Gulf, where climate conditions are most favorable for growing strong sturdy trees.

\* \* \* \* \*

**VARIETIES**

In selecting your trees, choose varieties combining the following qualities; Good bear, large soft shell. We are selecting varieties that have been tested and are best, and we will never propagate anything that we can not recommend.

\* \* \* \* \*

**HOW TO PLANT**

Dig a hole about two feet in diameter and deep enough to let the tree set as deep, or one inch, deeper, than it stood in the nursery. Spread the roots out to their natural positions, being careful to cut off all bruised roots with a sharp knife, cutting from the under side. The best way to dig the hole is with dynamite.

\* \* \* \* \*

**GUARANTEE**

We guarantee our trees to be true to name, and if by accident any should be sent under wrong label, they will be replaced free of charge or money will be refunded. We assure no other further responsibility.

## P R I C E S — P E C A N S

Size	Price
6 to 12 inches high (small)	\$.50 each
1 to 2 feet high (medium)	.75 each
2 to 3 feet high (average)	1.00 each

## C O N D I T I O N O N S A L E

We take great care to send out only strong vigorous trees, budded and grafted with the above mentioned varieties

We have no agents. We sell direct to the trade and save our customers the profit that agents would get. Our reputation is at stake, therefore we are obliged to treat every customer with the same fairness and honesty.

Cash should accompany all orders not accompanied by satisfactory references.

The above prices are for strong, well grown trees, carefully packed and delivered to the express or railroad company at Newton, Texas or Anacoco, Louisiana.

The necessity of setting out a good orchard can not be too forcibly impressed. If you have land that hickory does well on, by all means set out some pecan trees. The initial cost is insignificant as not to be considered when estimating the ultimate value of the orchard.

We will gladly answer any question you may ask regarding setting out your orchard, and if you so desire, we will take pleasure in visiting your place, inspect your land and pass on the merits of an orchard on your place. We have made and especial study of the nursery business and our experience and time is placed at your disposal. If you have business that takes your time, we can set out the orchard for you.

## N U T S

✓ We have a bearing "Pecan Grove" of the leading varieties, such as ~~Stuart~~, Money-maker, 'Pabst', 'Van Deman', etc. Prices \$1.00 per pound post paid.

## **FIELD SEED ANNOUNCEMENT**

We will have for Spring Planting Field seeds, such as Chisholm corn, Surecropper corn, Hasting's Prolific corn, Velvet Beans (early speckle) and Soy Beans. All these seeds are from carefully selected seed and will be hand shelled and graded.

We have been working along under the advice of our County Agricultural Agent and we can save you money on your field seeds and at the same time give you better seed than you can get from a large seed house out of your locality.

Give us an order for your corn and bean seed and improve your crops. Our prices will be right, when you get ready to buy, write us.
